

ELIJAH SILVESTRI

Communications and Social Media Specialist - Cover Letter

Dear Fair Work Ombudsman (FWO),

I am writing to express my interest in the Assistant Director - External Communications position, specialising in the field of social media and external communications management. My name is Elijah and I consider myself to be a guru when it comes to anything social media. I offer proven experience in simultaneously managing various social channels, from creating community-lead organisational media, to publishing personal content and growing my own social platforms to over 32,000+ followers. Having accumulated a total of 17.5+ million views, I am a results driven entrepreneur, with the desire to work closely with an organisation to achieve the desired goals.

With over 7 years of content creation and social media management, I have learnt to prioritise what works best to ensure I reach deadlines and achieve desired results. After having started my first successful communications channel on Youtube at the age of 13, I have since acquired the ability to work with additional applications, allowing me to streamline and further refine my communicational skills. I have extensive experience in both Adobe and Microsoft Suite and have demonstrated ability in website and media design, social media graphics, video editing, form and invoice development and copy writing. I have successfully launched and managed email marketing campaigns, and have developed and maintained website pages, one example being that of the Pontian Eagles Soccer Club, which required a high level of stakeholder and community engagement, in order to meet client demand.

In addition to the abovementioned, I have formulated my own advertising creatives to successfully convey ideas and achieve desired results. My proven ability to produce and sell my own digital products to targeted audiences is something I believe would be of specific use to the Fair Work Ombudsman. I have effectively utilised social media systems, graphics and advertising platforms such as Meta Business Suite, Google Ads Manager and Analytics to see what works best and convert customer based interest into over 500+ of my very own digital product sales.

Having already worked for a government body, I now desire to step into a position that will utilise my full level of expertise in these areas.

Through means of my own social platforms, I have enabled myself to be able to provide a unique highly-desired set of skills to a company that wants to achieve results. From my extensive ability to convey ideas and produce different forms of media, I strongly believe I can effectively contribute to the Fair Work Ombudsmans' external communications team. Additionally, my current casual role working for the Adelaide Entertainment Center demonstrates a proven ability to work for a government entity and provide service based work tasks to foster community engagement.

I would like to thank you for considering my application. I would gladly welcome the opportunity to contribute my skills and enthusiasm to the Council's Marketing and Communications team, and to support the delivery of meaningful and impactful communication for the community.

I invite you to look at my capabilities website at:
